ANNOUNCEMENTS

The National Collegiate Athletic Association, through the wholehearted support and cooperation of its member institutions, contributed \$128,267.74 during the past year and a half toward the financing of the 1948 U.S. Olympic team. The Association wishes to express its appreciation to the Olympic Fund Committee of Chairman Harry Stuhldreher of the University of Wisconsin, H. Jamison Swarts of the University of Pennsylvania and Alfred R. Masters of Stanford University as well as the many District chairmen and volunteer workers who aided greatly in the success of this venture. It also wishes to thank the individual member institutions and their athletic administrations. You all contributed generously toward the financing of the Olympic team which was victorious in London primarily because of the talents of college-trained athletes.

Actually, colleges and universities of the country contributed a grand total of \$161,170.51. Previously the N.C.A.A. had collected \$32,902.77 for the 1940 games which, of course, were never held and this latter sum of money was turned over to the U.S. Olympic Association

September 10, 1946.

From the college standpoint, the entire undertaking of selecting athletes, financing the team, holding the many necessary tryouts as well as aiding in the general organization was a tremendous task. The success of the endeavour is one we all can be proud of. A complete report on this matter will be presented in the annual Yearbook of the

Association.

The 43rd annual Convention of the N.C.A.A. will be held at San Francisco, California, January 7 and 8, 1949. The necessary material for making hotel reservations was mailed to the athletic directors of each N.C.A.A. member institution, September 17, 1948. It is urged that you make your reservations promptly, and the officers of your Association sincerely hope that each member institution is represented by one or more delegates. As in the past, the N.C.A.A. convention will be held in conjunction with the convention of the American Football Coaches Association.

Captain Tom J. Hamilton, Athletic Director of the U.S. Naval Academy, has been elected to membership on the N.C.A.A. Council to replace Captain E. B. White, former Director at the Academy who has been detached for duty

with the Pacific Fleet.

The annual Convention of the College Physical Education Association will be held at Chicago, Illinois, December 27 and 28, 1948.

RESULT OF N.C.A.A. BASEBALL QUESTIONNAIRE

(The American Association of College Baseball Coaches and the N.C.A.A. are negotiating with the officials of professional baseball for an agreement not to sign college players until they have completed their competition. In order to obtain an accurate picture of college baseball, a questionnaire was distributed by the N.C.A.A. to its 370 member institutions.

(Following are the results of the questionnaire. It should be noted that the information refers to the 1947 season and that during 1948 the game was expanded at many colleges and universities.)
